Problem

Organizations are facing significant challenges with employee wellbeing and workspace relationships specifically in;

- Deteriorating employee relationships ranging from poor communication to employee conflicts.
- Mental Health crisis, rising levels of stress, anxiety and depression, burnouts which negatively impact work productivity.
- Lack of access to mental health resources and tools to boost interpersonal relationships.

Our focus is on creating an **inclusive and supportive workspace** where employees feel valued, connected, and empowered to thrive, ultimately boosting engagement and productivity.

Solution.

Users enjoy personalized mental health assistance.

- 24/7 anonymous support help that removes barriers to seeking help.
- Relationship conflict resolution offering real-time tools to solve interpersonal workspace issues.
- Stigma free mental health support that allows employees a safe space to address concerns.

What Makes Kei unique?

Bridges the gap between traditional HR support and individual employee needs by providing immediate, real time, personalized support for mental health challenges and relationships issues that mostly interconnect in workspaces.

Impact
